

104. No informal advice, guidance, suggestions, or comments by EPA regarding reports, plans, specifications, schedules, and any other writing submitted by the Respondents will be construed as relieving the Respondents of their obligation to obtain such formal approval as may be required by this Order. Any deliverables, plans, technical memoranda, reports (other than progress reports), specifications, schedules and attachments required by this Consent Order are, upon approval by EPA, incorporated into this Order.

XXVI. TERMINATION AND SATISFACTION

105. This Consent Order shall terminate when the Respondents demonstrate in writing and certify to the satisfaction of EPA that all activities required under this Consent Order, including any stipulated penalties demanded by EPA, have been performed and EPA has approved the certification. This notice shall not, however, terminate Respondents' remaining obligation to comply with Sections XVI (Other Applicable Laws) and the record retention requirements of this Consent Order.
106. The certification shall be signed by a responsible official representing each Respondent, or in the case of non-corporate Respondents by the general partner of the Respondent or by the individual Respondent. Each Respondent or Respondent representative shall make the following attestation: "I certify that the information contained in or accompanying this certification is true, accurate, and complete." For purposes of this Consent Order, a responsible official is a corporate official who is in charge of a principal business function.
